

Screens and User Flow Documentation

Overview

This document outlines all the screens in the messaging app, their purpose, functionality, and user flow.

Screens

1. Splash Screen

- **Purpose:** Initial screen shown while the app loads.
 - **Actions:**
 - Check if the user is logged in.
 - Redirect to the **Login** screen if not logged in, or to the **Home** screen if logged in.
-

2. Login Screen

- **Purpose:** Allows users to log in using their email and password.
 - **Elements:**
 - Email input field.
 - Password input field.
 - Login button.
 - "Forgot Password?" link.
 - Sign-up link for new users.
 - **Actions:**
 - Validate user credentials and redirect to the **Home** screen on success.
-

3. Registration Screen

- **Purpose:** Allows new users to create an account.
 - **Elements:**
 - Email input field.
 - Password input field.
 - Confirm password field.
 - Sign-up button.
 - **Actions:**
 - Register the user and send a verification email.
 - Redirect to the **Login** screen after successful registration.
-

4. Home Screen

- **Purpose:** Central hub of the app, displaying recent chats.
- **Elements:**
 - List of recent conversations with users and groups.

- Floating action button (FAB) to start a new chat.
 - **Actions:**
 - Tap on a chat to open the **Chat Screen**.
-

5. Chat Screen

- **Purpose:** Displays conversation history and allows users to send and receive messages.
 - **Elements:**
 - Messages list (scrollable).
 - Input field for typing messages.
 - Send button.
 - Media attachment button.
 - **Actions:**
 - Send text messages.
 - Attach and send media.
-

6. Contacts Screen

- **Purpose:** Displays a list of contacts who are also app users.
 - **Elements:**
 - Search bar for filtering contacts.
 - Add new contact button.
 - **Actions:**
 - Select a contact to open a new chat.
-

7. Profile Screen

- **Purpose:** Displays and allows editing of user profile information.
 - **Elements:**
 - User's profile picture.
 - Name and email.
 - Edit button.
 - **Actions:**
 - Update profile details.
 - Change profile picture.
-

8. Settings Screen

- **Purpose:** Allows users to configure app settings.
- **Elements:**
 - Notifications toggle.
 - Theme (light/dark mode) toggle.
 - Privacy settings.
- **Actions:**
 - Adjust settings and save changes.

9. Forgot Password Screen

- **Purpose:** Allows users to reset their password.
 - **Elements:**
 - Email input field.
 - Reset button.
 - **Actions:**
 - Send password reset email and redirect to the **Login** screen.
-

10. Media Viewer Screen

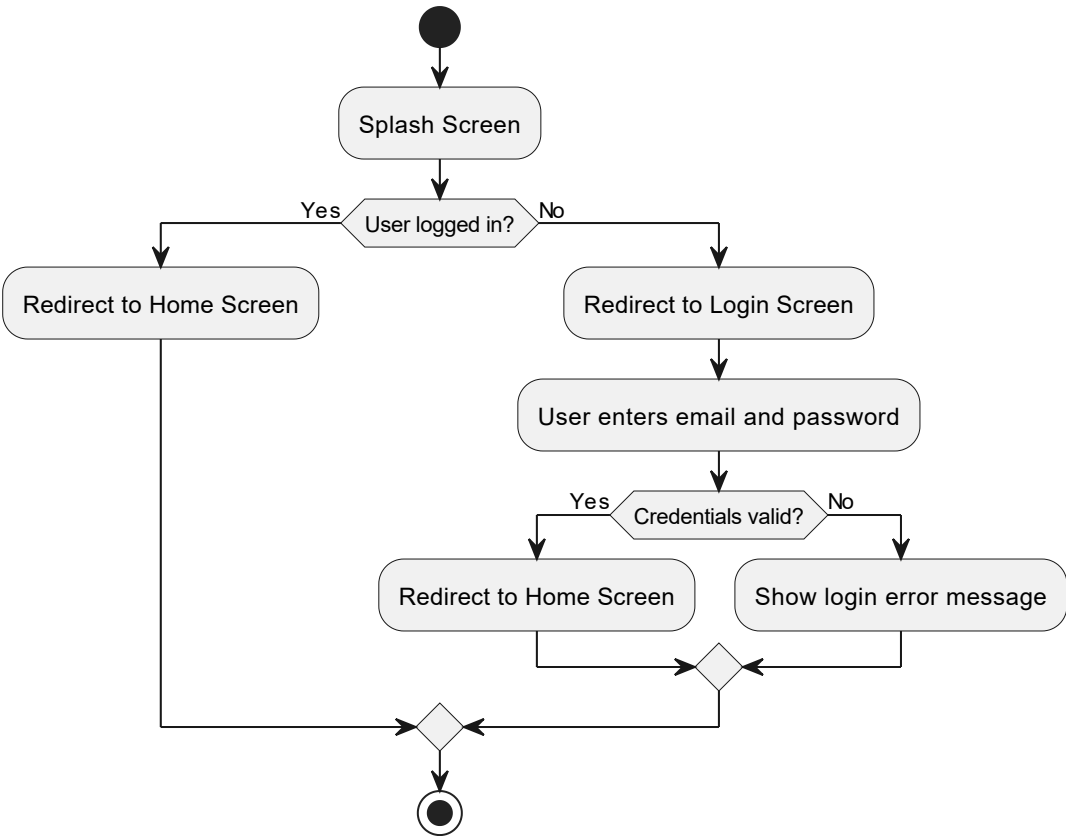

- **Purpose:** Displays media (images, videos) in full-screen mode.
 - **Elements:**
 - Media preview.
 - Download button.
 - Share button.
 - **Actions:**
 - View, download, or share media.
-

User Flow

User Login Flow

Description

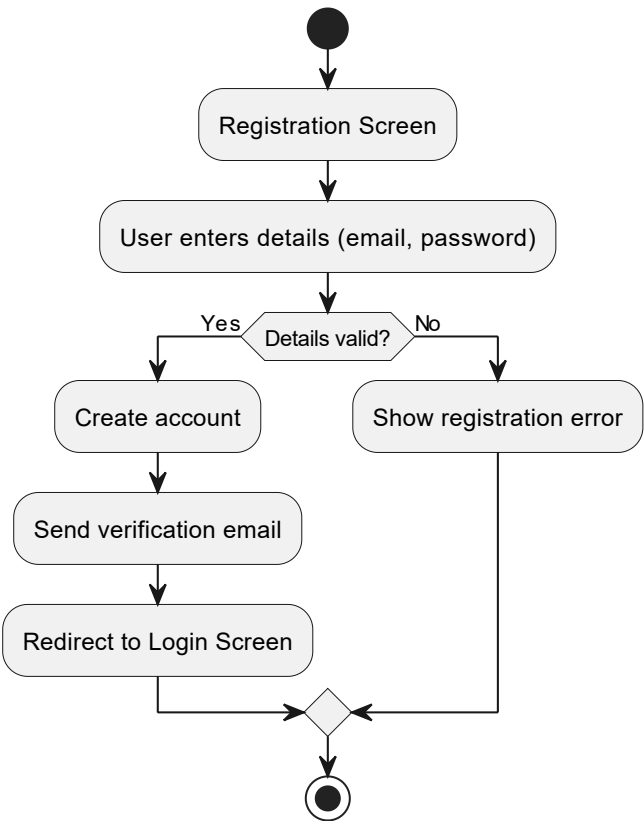

Guides users through the login process from the splash screen to the home screen.

User Registration Flow

Description

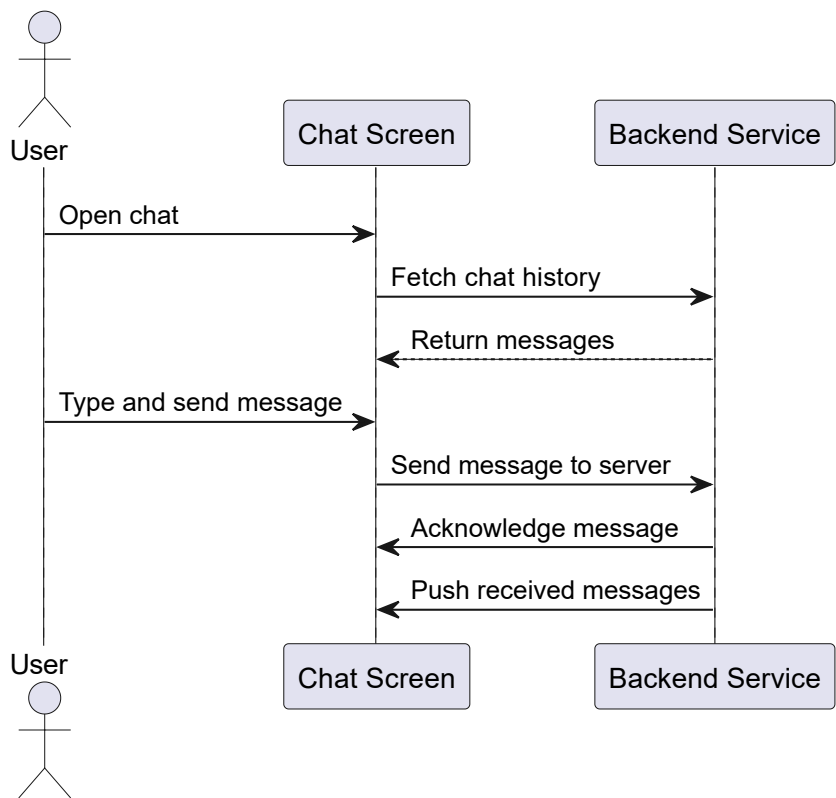

Guides new users through the account creation process.

Messaging Flow

Description

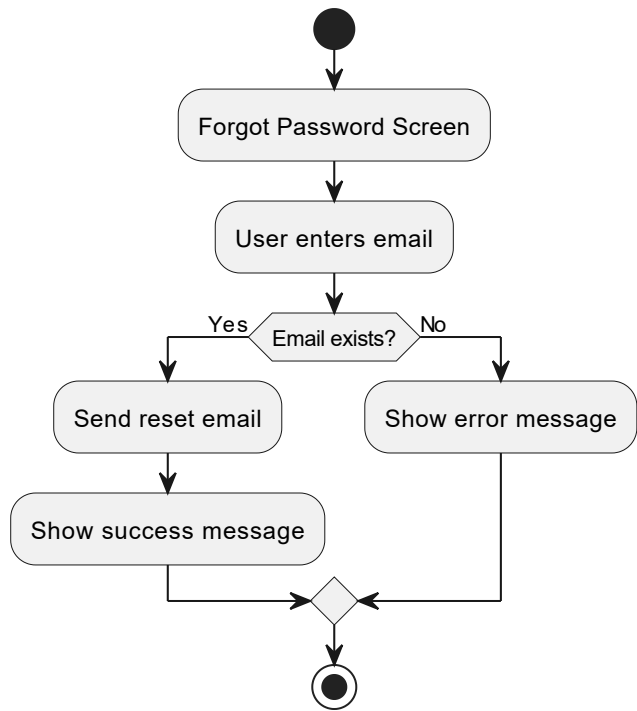

Covers sending and receiving messages in the chat screen.

Password Reset Flow

Description

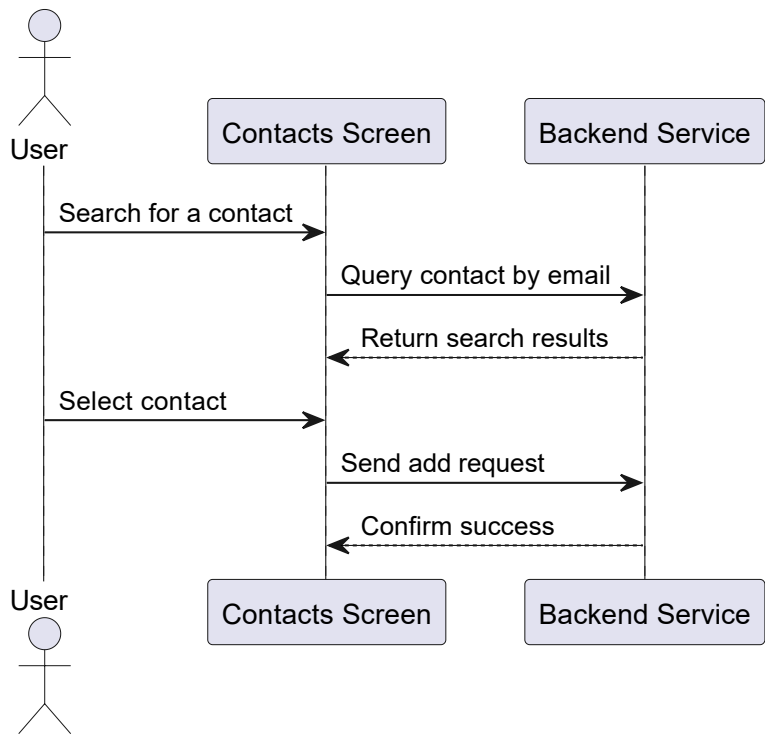

Outlines the process of resetting a user's password.

Contact Addition Flow

Description

Covers adding a new contact to the user's contact list.

Notes for Designers

- 1. Ensure all screens follow a consistent visual theme.
- 2. Maintain clear visual hierarchy to highlight important actions (e.g., FABs, primary buttons).

3. Include user feedback for actions (e.g., loading indicators, success/error messages).
 4. Optimize for accessibility:
 - Use high-contrast colors.
 - Support screen readers.
 - Provide large tappable areas for buttons.
-
